

Distinguished Manufacturers of the Year - June 2019

A “tip of the helmet” salute established in 1994 to acknowledge the enduring contributions, and support provided to the land speed racing community through better, safer, products and services. Without these companies many land speed records would have been unrealized, and fervently held dreams would have remained unfulfilled. Through the years each of these distinguished Honorees have often been considered an extended member of a team.

1994	Ross Pistons
Iskenderian	2006
1995	Bruce Crower
